Top 5 Resume Writing Tips

The tips below offer a strategic approach to leveraging your experience and avoiding classic resume faux pas.

- 1. The layout and format is important.**
Select a traditional font that is easy to read and use black type against white paper.
- 2. You have 15-20 seconds to shine.**
Highlight your key accomplishments and most relevant skills within the top half of your resume, preferably using bullets.
- 3. List your experience in reverse chronological format.**
List your present or most recent job first, working backwards unless you have a gap in employment. In that case, re-arrange your employment history to reflect work relevancy instead.
