## Synopsis

Skelly is a dungeon core, a living, sentient dungeon that can create and control monsters. He has been trapped in the same dungeon for centuries, but now he has finally found a way to escape. With the help of his loyal minions, Skelly sets out to explore the world and find a new home for his dungeon.

But the world is a dangerous place, and Skelly soon finds himself facing threats from all sides. Adventurers, monsters, and even other dungeon cores are all trying to destroy him. But Skelly is not one to give up easily. He will fight to protect his dungeon and his minions, and he will show the world that a dungeon core can be more than just a monster.
