

Science Writer's Odyssey Into an Illness Science Doesn't Understand

In her new book, "The Invisible Kingdom: Reimagining Chronic Illness," science writer Hillary Johnson traces her personal journey with ME/CFS, a devastating illness that affects millions worldwide but is still poorly understood by the medical community.

Through her own experiences and interviews with other patients, Johnson explores the challenges of living with an illness that is often invisible to the outside world. She also delves into the latest scientific research on ME/CFS and investigates the reasons why the medical community has failed to find a cure or effective treatment.

Through the Shadowlands: A Science Writer's Odyssey into an Illness Science Doesn't Understand by Julie Rehmeyer
