By James Hunter

In his new book, *Big Bright Beautiful Tomorrow*, James Hunter offers a vision of a hopeful future, arguing that we can overcome the challenges we face and create a better world for ourselves and our children.

Hunter draws on his own experiences as a journalist, activist, and father to paint a picture of a future that is both realistic and inspiring. He acknowledges the challenges we face, from climate change to economic inequality, but he also argues that we have the power to overcome them.

Hunter's vision of the future is one in which we have created a more just and sustainable world. It is a world where everyone has access to quality education, healthcare, and housing. It is a world where we have

transitioned to a clean energy economy and where we have taken steps to protect our planet.

Hunter's book is a call to action. He urges us to work together to create the future we want. He believes that we have the power to make a difference and that we owe it to our children to create a better world.

The Big Bright Beautiful Tomorrow is a book that will inspire you to hope for a better future. It is a book that will challenge you to think about the kind of world you want to live in and to take action to make it a reality.
