Jimmy Breslin is one of the most acclaimed journalists of our time. He has won two Pulitzer Prizes, and his work has been praised by critics for its honesty, compassion, and wit. In his new book, *The World According to Breslin*, Breslin turns his attention to the human condition. He explores what it means to be alive, to love, to suffer, and to die. The result is a book that is both deeply moving and profoundly thought-provoking.

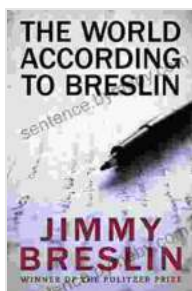

Breslin's writing is characterized by its honesty and its lack of sentimentality. He does not shy away from the difficult questions, and he is not afraid to challenge conventional wisdom. In *The World According to Breslin*, he tackles some of the most fundamental questions about life and death. He asks what it means to be happy, what it means to be good, and what it means to be human.

Breslin does not offer easy answers to these questions. But he does provide a unique and insightful perspective on the human condition. He shows us that life is both beautiful and terrible, and that we are all capable of both great love and great cruelty. But ultimately, Breslin believes that we are all connected, and that we all have a responsibility to one another. In his final chapter, he writes:

“We are all in this together. We are all part of the human race. We all have the same hopes and dreams. We all want to be loved and accepted. We all want to live a good life. And we all want to leave the world a better place than we found it.”

The World According to Breslin is a must-read for anyone interested in understanding the human condition. It is a book that will make you laugh, cry, and think deeply about what it means to be alive.
